

Warning - this is Part I of a three part story, which means cliffhangers. Alisande Karran is running--from an uncle determined to marry her off, and use her to take the throne from her father. All she can hope is to keep herself free of him. Then she runs into Jack Swift. Literally. Master thief, scoundrel, and wanted by nearly every court in the kingdoms, he also turns out to be her savior. Jack is only trying to keep away from the city guard after a job goes horribly wrong, when he runs into a petite handful who turns out to be a runaway princess. His admiration for Alisande's courage quickly turns to desire, after a daring pretense places them directly in the path of the men chasing them. The attraction between them is undeniable, but impossible. How in the kingdoms could a thief and a princess ever find their way to each other? For the 18+ crowd, due to steamy, sexy love scenes.
