

Before the Rain

The war is over, but the rain continues, day and night. The rebel faction, Verity, enlists Maddox to safely guide assassin Allana, out of the city. No problem. He'll escort her, get paid, and return to his life. But the more he learns about the mysterious and beautiful assassin, the more she intrigues him. With the world falling apart around them, they must decide if they can trust each other despite the deceptions they face. If they can't, they'll die.
