

One night. That's all it was supposed to be. Blake Thomas' entire career as a Special Agent with the Federal Bureau of Investigation has led up to this one job: submerging himself in a lifestyle of fast cars and even faster women. He's deep undercover, building a case to bring down an intricate criminal ring of car thieves in Las Vegas, with no time to think about the one woman he can't seem to forget. He never imagined his past would become tangled with his present, threatening to be his downfall. Two years ago, Carly Mathewson planned for a one-night stand with a perfect stranger. What she didn't count on was being reminded of him every time she looked into the emerald eyes of the daughter they unexpectedly created. Since that night, she's devoted herself to keeping her life simple. But when her past refuses to stay buried, she's determined to do everything she can to keep it from jeopardizing what she's worked so hard to achieve. Suddenly, everything and everyone Carly has known aren't quite what they seemed. Every present has a past. Before they can secure a future together, Blake and Carly are forced to admit that their lives are linked by so much more than just that one night. Without warning, they're bound together for life.
