

Emily Swanson has finally married her knight in shining armor, but theres just one problem: she seems to have lost her pair of rose colored glasses. Can Emily survive the first year of marriage without them? How can she endure the (mis)communication of hint language or the in-laws who forget to knock? Is it possible to still love a man who cant follow a shopping list? And how in the world did she end up with someone who wont cut down a Christmas tree? Emily struggles to stay lovely and sweet while dealing with a late honeymoon, her husbands new puppy, and the newfound paranoia that everything makes her look fat. But with tricks from Mother and the Cult of Married Women (along with a whole lot of sass), Emily soon learns how to keep her sanity and carry on. Kick off your heels, grab a glass of wine, and laugh along as Emily Swanson discovers the realities of life together in marriage that are quickly revealed when the rose colored glasses come off.
