

The Only Witness: The Center City Series: Book One

Center City wasn't exactly a hotbed of activity, which suited Vera Warren just fine. She liked her life the way it was, quiet and uncomplicated. In the blink of an eye, both go out the window when she sees something no one was intended to see. Things become even more complicated when Deacon Deke Hawke, President of The Vikings MC and her secret crush, shows up at her door. She can't be certain he's there simply as a customer or if he knows what she saw. Deacon Hawke wasn't looking for a relationship; he had enough on his plate. Between being President of The Vikings and a member of the Center City Pack, he had to walk a fine line to keep the two apart. It was one he walked with pride, and skill. Then everything changes, and Deacon finds himself thrust into a life and death battle, with Vera at his side. Lives will be lost. Secrets will be revealed. Bonds will be built and broken and the only thing that's certain is that nothing is certain.
