

Earth Two: A romantic fantasy, transcending time and dimensions

On Earth-Two everything is free for the asking, everyone is as attractive as they believe they are, and making love can reach levels of ecstasy far beyond what humans ever experienced on Earth. So why are most young souls so anxious to leave? When elder-soul Andrew create Phoebe from a portion of himself, she begins her existence like most new souls on Earth-Two: Fresh and innocent, a void longing to be filled. After three arduous lives on Earth-- First as a male gang-banger in Cleveland, then as a promiscuous fraulein in 17th Century Germany, and finally as a selfish mother in modern day Connecticut, she has grown enough in wisdom and experience to take on the most challenging and exciting role of her young existence. Giving her one more tool to fulfill this destiny, Andrew uses his skills in matter-manipulation to sculpt Phoebe's astral image to that of an irresistible beauty. It is during this next incarnation that Phoebe meets handsome Ethan in ancient Rome, and a love affair for the ages flourishes. With each ensuing adventure on the blue marble with each separation and reunion, their passion for each other continues, seemingly unbreakable. But even in this magnificent afterlife dimension of Earth-Two where love abounds, there can be adversity. And in this story its name is Leonid. Across the centuries and dimensions, this handsome but narcissistic young soul stalks Phoebe relentlessly in his obsession to have her for his own... Only to be thwarted at every turn. Until...

But in reality he also detaches the craft he himself is in (Ranger 2) to shed more mass. At this time humans have left the Earth as Murph solved the gravity problem, which Some are total fantasy of the movie makers. .. 2. We were told that love is the only force physics cannot explain and it transcends time and space. 3.Results 1 - 20 of 212 EARTH TWO By Richard Taylor A romantic fantasy, transcending time and dimensions. On Earth-Two everything is free for the asking, Eternalism is a philosophical approach to the ontological nature of time, which takes the view Some forms of eternalism give time a similar ontology to that of space, as a dimension, with different 1 The present 2 The flow of time
